- City Councilors
- County Commissioners
- Tribal Leaders
- Economic Developers
- Volunteers
- NMEDD Regional Reps

Mr. Chuck Nielson spent over 30 years working in Human Resources with Texas Instruments, as the company grew into a powerful worldwide presence in the electronics industry. Chuck now serves as the Chairman of a Community Association. Based on community input for priorities, in the past seven years, he has helped his frontier community attain road improvements, establish a Fire Department, open a charter school to replace the public school closed by the greater school district, and identify game and fish activities as a revenue producer for their community. Don't miss this inspiring presentation on Thursday, April 30, 2009.
